This Training supports students to develop Integrity, Congruency, and Embodiment in the process of becoming a Vocal Sound Healing practitioner and becoming proficient at using vocal sound healing tools for Personal Development. Students will be trained in how to use the Voice via vocal sound and song in skillful ways as a healing tool for self and others, including the liberation of one's voice, and the freeing of a client's voice. Instruction will be given on singing and on the use of songs and vocal sounds in contexts such as: private sessions, workshops, classes, and ceremonies. Students will learn how to successfully navigate one's own Psyche's imaginal figures for the purpose of healthy internal balance and stabilization. Practitioners-to-be will acquire the capacity to guide clients and one's self into the depths of the Psyche for ultimate wound-root resolution and transformation. Through embodied practices, students will learn how to protect themselves and their loved ones, as well as clear & protect their land, home, and office at energetic levels. The Program's Teachings will include how to conduct inner world healing processes and ceremonies where highest-frequency ancestors, guides, and forces of Light may be called to contribute. The Vocal Sound Healing Academy Level I Certification Program emphasizes individual responsibility at the highest possible human level for one's healing journey, in order that students become clear vessels through which Divine Light and Love flows through the Voice and one's entire Being to and for any client, situation, or group for its ultimate positive transformation.
